FINISHING

Using your needle weave in any loose yarn tails and trim the excess. For the tail glue a white pom pom in the center of the body.

If you would like to make a garland, choose a yarn color, and measure out the length you need. Then, thread the yarn on our needle and string the yarn through the bunny's section where the head and the body meet. Or you can attach a single yarn loop on the backside of the bunny between the ears.

If you are not familiar with how to make the crochet stitches used in this pattern you can go to You Tube and type in the type of stitch you are wanting to learn. They have some good instructional videos that are easy to follow.
